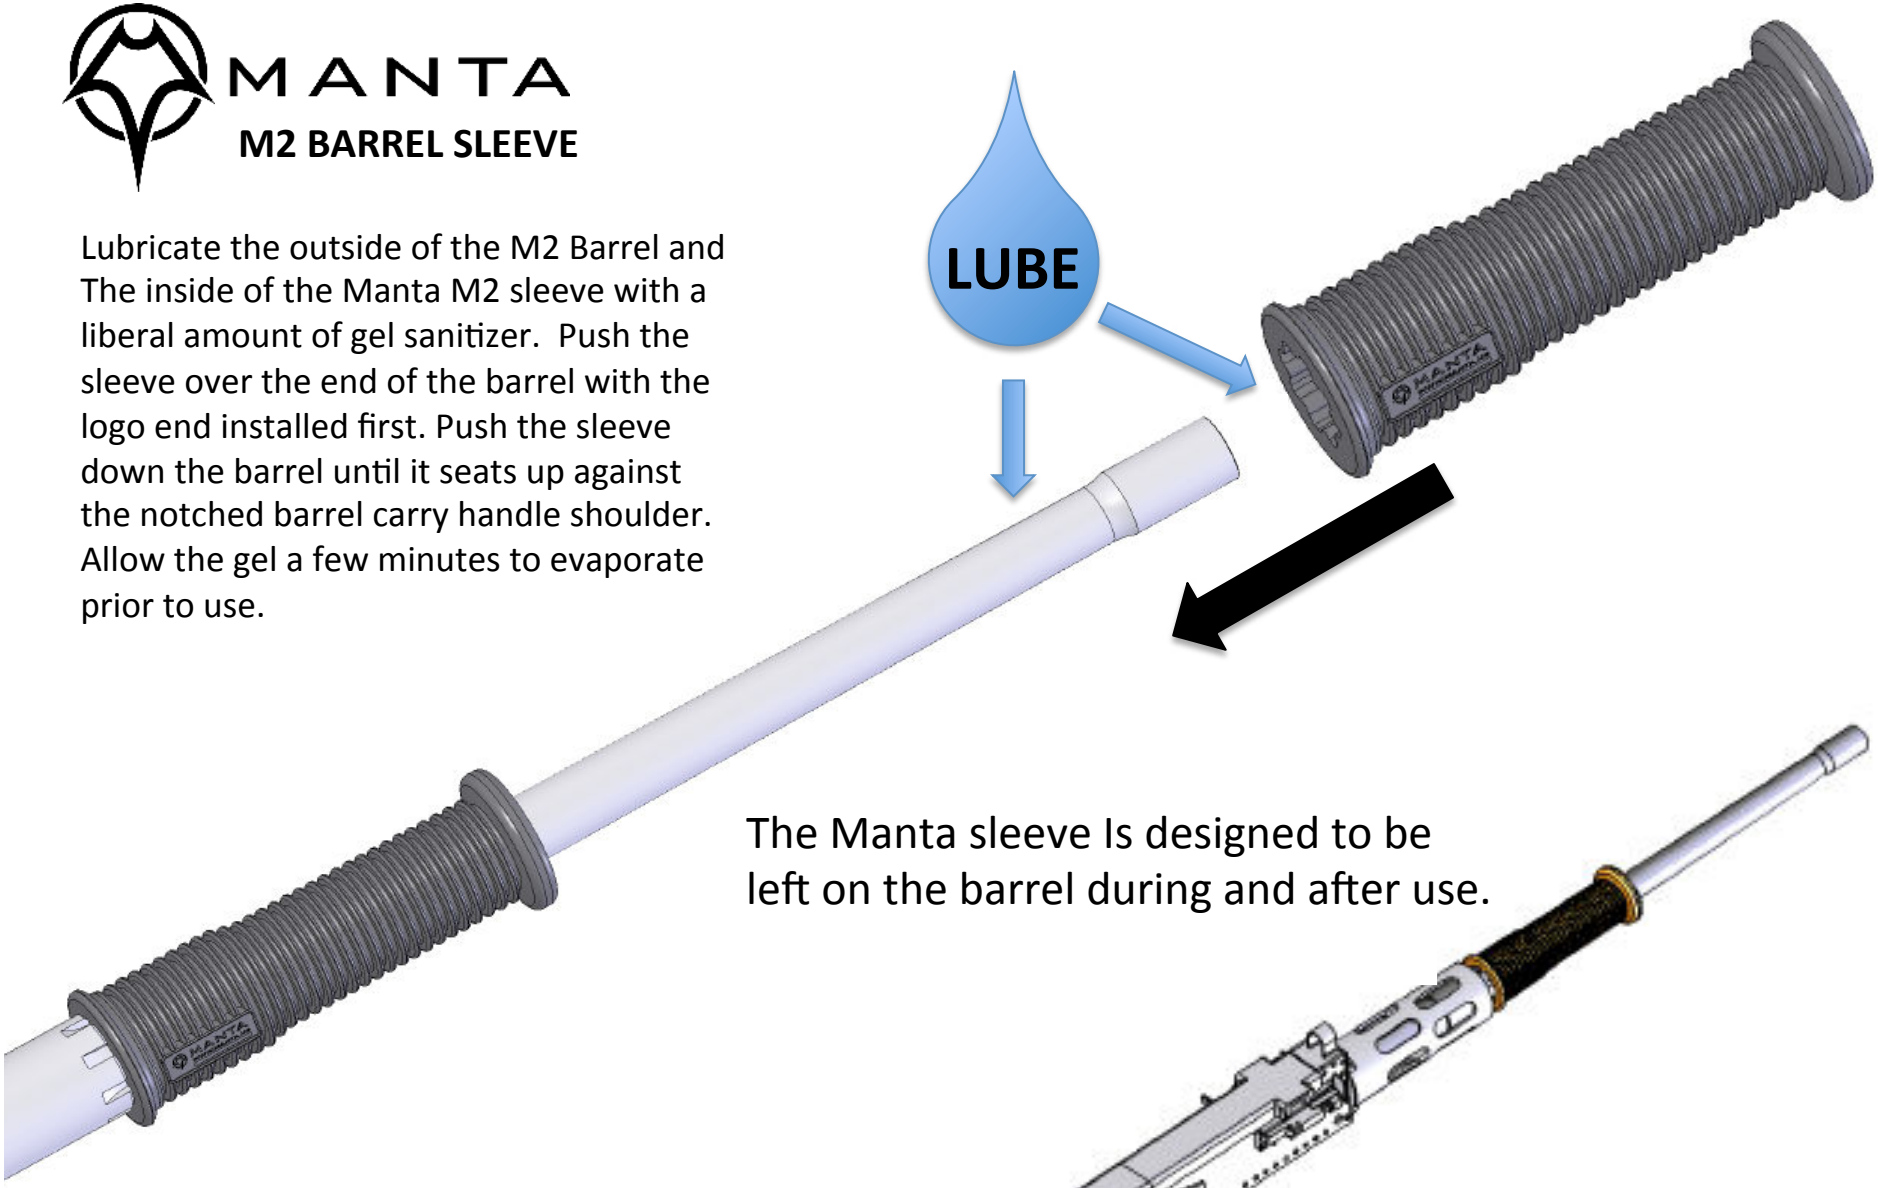
MANTA

M2 BARREL SLEEVE

Lubricate the outside of the M2 Barrel and The inside of the Manta M2 sleeve with a liberal amount of gel sanitizer. Push the sleeve over the end of the barrel with the logo end installed first. Push the sleeve down the barrel until it seats up against the notched barrel carry handle shoulder. Allow the gel a few minutes to evaporate prior to use.



The Manta sleeve Is designed to be left on the barrel during and after use.
